HAZARD(S) IDENTIFICATION

Classified as nonhazardous. Products are considered an "Article" as defined by OSHA Hazard Communication Standard 29 CFR 1910.1200 (c) and do not pose a physical hazard or health risk to employees.

EYE: Not expected

SKIN: Not expected

INGESTION: Unlikely, material physiologically inert

INHALATION: Unlikely, material physiologically inert

OTHER HAZARDS: No additional information available

CLASSIFICATION: No need in accordance with GHS criteria

LABEL ELEMENTS: Does not require a hazard warning label in accordance with GHS criteria

COMPOSITION/INGREDIENTS

CHEMICAL FAMILY: Polyethylene (HDPE Yarn + LDPE Coating + Color Additive)

COMPONENT: Polyethylene

CAS NUMBER: 9002-88-4

COLOR CONCENTRATE: Various

ADDITIVES: Various

FIRST AID MEASURES

Products in plastic sheet form are not expected to cause adverse health effects under normal handling and storage conditions.

EYE: If heated material should splash into eyes, flush eyes immediately with fresh water for 15 minutes while holding the eyelids open. Remove contact lenses if worn. Get immediate medical attention.

SKIN: If heated material gets on skin, quickly cool in water. See a doctor for extensive burns. Do not try to peel

solidified material from skin or use solvents or thinners to dissolve it. Use of vegetable oil, mineral oil or petroleum jelly is recommended for removal of material from skin.

INGESTION: Not expected to be harmful if swallowed. May cause choking.

INHALATION: If heated, fumes may be unpleasant and produce nausea or irritation of upper respiratory tract. Move exposed person to fresh air. If breathing is difficult, give oxygen. Get medical attention if difficulties continue.

FIREFIGHTING MEASURES

EXTINGUISHING MEDIA: Use water spray, water fog, CO₂, dry chemical.

FIREFIGHTING PROCEDURES: For fires, do not enter closed or confined space without proper protection equipment, including self-contained breathing apparatus.

SPECIAL PROTECTIVE EQUIPMENT FOR FIREFIGHTERS: Wear positive-pressure self-contained breathing apparatus (SCBA) and protective firefighting clothing (includes firefighting helmet, coat, trousers, boots and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.

UNUSUAL FIRE AND EXPLOSION HAZARDS: In its present form, product offers no unusual fire and explosion hazards.

HAZARDOUS COMBUSTION PRODUCTS: During a fire, smoke may contain the original material in addition to combustion products of varying composition, which may be toxic and/or irritating. In smoldering or flaming conditions, carbon monoxide, carbon dioxide, and carbon are generated. Based on combustion toxicity testing, the effects of combustion from this material are not more acutely toxic than the effects of combustion from common building materials such as wood.

ACCIDENTAL RELEASE MEASURES

PROTECTIVE MEASURES: No special required instructions

SPILL MANAGEMENT: Recover spilled material if possible. See Disposal Considerations for additional information.

ENVIRONMENTAL PRECAUTIONS: No special required instructions

HANDLING & STORAGE

Do not use or store near heat, sparks or open flames. Always store in a dry location. Take measures to prevent the build of electrostatic charge.

EXPOSURE CONTROLS/PROTECTION

Products, in plastic sheet form, are not expected to cause adverse health effects under normal handling and storage conditions.

EYE/FACE PROTECTION: Should not be necessary

SKIN PROTECTION: Should not be necessary

HAND PROTECTION: Should not be necessary

RESPIRATORY PROTECTION: Should not be necessary

INGESTION: No precautions necessary due to products' physical properties

VENTILATION: Normal
